

Effects	Description	MSRP
Page Effects	Enables designers to add excitement using 30+ full page animations, 25+ trailing cursor effects and 30+ professionally-designed introduction pages combining full page animations with sound effects. Also included are 15+ customizable templates and 180+ sound effects to create personalized animations.	\$49.95
Java Effects	Lets designers turn images into animated "eye-candy" using 40+ image processing effects, display text as scrolling messages, and present photos as eye-catching, space-saving slideshows using 30+ transition effects. Also included are multiple sound triggers, background sounds, hyperlinks, 16 bonus applets, 90+ FrontPage themes, 180+ sound effects and 600+ pieces of web art.	\$49.95
Component Effects	Enables web designers to create scrollers and slideshows that present information in an interesting and compact way using three powerful DHTML component editors. Also included are 180+ professional sound effects.	\$29.95
Super Themes	Description	MSRP
Package #1 Package #2 Package #3	Each Super Themes package contains 4 unique designs, 4 color variations and the Super Theme Browser that lets designers apply the wrap-around theme look to existing FrontPage web sites. Super Themes are also compatible with FrontPage web templates for creating new web sites.	\$39.95 each \$99.95 bundled
Best of Paul #1 Best of Paul #2 Best of Paul #3	These Super Themes packages are designed by Paul Vineburg, one of the first FrontPage template designers. They contain 4 unique designs, 4 color variations and the Super Theme Browser that lets designers apply the wrap-around theme look to existing FrontPage web sites. Super Themes are also compatible with FrontPage web templates for creating new web sites.	\$39.95 each \$99.95 bundled
Developer Tools	Description	MSRP
Chameleon	Lets designers easily change the color, saturation and brightness of FrontPage theme graphics and other web images with a click of a button, and without an image editor. Also included are 15+ FrontPage themes and web art.	\$29.95
Media Maker	Lets users publish to CD their FrontPage web pages that contain text, audio, videos, images and dynamic content. The Media Maker Add-in creates the required auto-run file for the CD and sets up the FrontLook Viewer that allows the designer to control the look of the presentation. Also included are 8 presentation templates.	\$39.95
Screen Capture	Enables users to capture the whole screen, the active window or any segment of the screen with a push of a button. Once captured, the user can print, fax, email, crop, save, place on the clipboard or bring the image up in any image editor. <i>*Note: this product can operate with or without Microsoft FrontPage or Office.</i>	\$19.95
Site Search Engine	Enables FrontPage Webmasters to set up a professional site search engine on their own site that's consistent with its look and feel. It offers the power of a high-end search engine, without monthly fees or annoying ads. Webmasters can set up keywords, search areas, control what pages are searched and format the results page to match the style of their site. Visitors have controls for page navigation, items per page, sort order, search area and search type.	\$39.95

Note: All FrontLook products integrate directly into FrontPage versions 2000, 2002 and 2003 and include interactive previews so designers never have to leave FrontPage. FrontLook's point-and-click interface lets users edit content without laborious HTML cut-and-paste scripting.
