

FrontLook Page Effects

Keep web site visitors mesmerized with this easy-to-use companion software for Microsoft FrontPage! Design web masterpieces in minutes by adding professionally-designed audio and visual special effects using a point-and-click interface.

Whether novice or professional, designers can...

- Add excitement to dull pages with full page animated effects
- Create personalized animations with their own logos and graphics
- Impress visitors with sleek, animated introduction pages and cool sound effects
- Point-and-click to add content without leaving FrontPage or cut-and-paste scripting

Look what others are saying about FrontLook Page Effects

"Why become a JavaScript scavenger and waste time trying to customize the code yourself when you can simply select these effects from a menu and instantly add them to your web pages?"
-Steven Schneiderman, CoolToolAwards.com

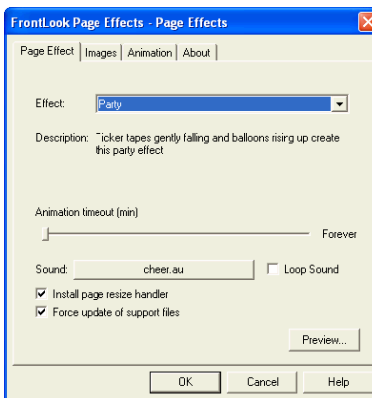

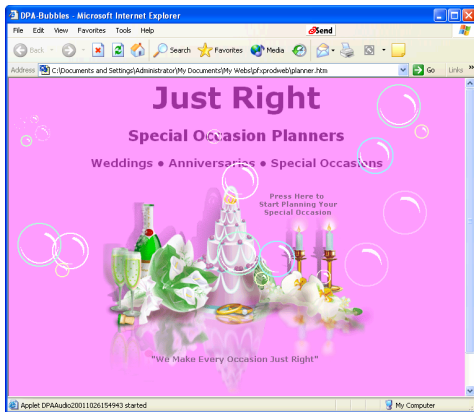

"Your firm has produced some great web design products! Thanks again for helping me build my business with ease." - Jessica L. Martin, The Ralston Foundation

"I have been a fan of this software company from the day I discovered it and continue to recommend it to anyone who wants to make their web site a little more special."
- Maureen Shannon, New Jersey PC Users Group

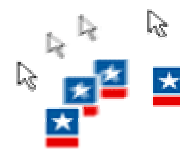

Ready Made Intro Pages

Choose from over 30 beautiful page layouts that combine page, trailing cursor and sound effects. Just add your graphics and link to your intro page.

Animated Page Effects

Dress up web pages with over 30 full-page animations, including: falling leaves, snow, ascending bubbles, swimming fish, bouncing balls, fireworks and flying butterflies.

Trailing Cursor Effects

Follow the visitor's cursor with over 25 different cursor images. Create personalized cursors with your own logos and graphics.

Easy Point-and-Click Web Design

With FrontLook's integrated menus, point-and-click interface and interactive previews, you'll never leave FrontPage to edit your site. No need for HTML cut-and-paste scripting or programming.
